

Tapestry™ Eastern Red Cedar

Juniperus virginiana 'Tapestry'

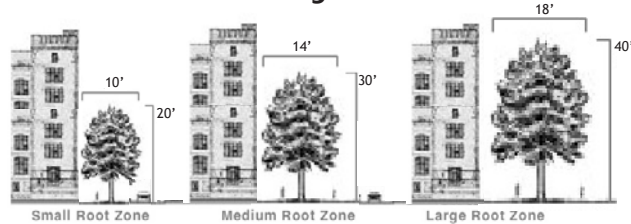

Native evergreen tree - own root. Tapestry™ Eastern Red Cedar is a unique own-root selection of Native Eastern Red Cedar. Tapestry™ is an excellent selection with a root system and transplantability far more superior than most other cultivars of *J. virginiana* that we have seen. Discovered in Adrian, GA, Tapestry™ was selected for its unique density, making it a very good selection for screening.
